The Public folder lets you easily share single files in your Dropbox. Any file you put in this folder gets its own Internet link that you can share with others -- even non-Dropbox users!

Step 1: Drop a file into the Public folder.

Step 2: Right-click this file, then choose Dropbox > Copy Public Link. This copies an Internet link to your file that you can paste anywhere: emails, instant messages, blogs, etc.

That's it! To share your file, just send the link to a friend.

Happy Dropboxing!
- The Dropbox Team

P.S. You can only link to actual files within your Public folder, not to folders. For help with sharing files visit http://www.dropbox.com/help/16
